

# 1: Outdoor Decor

This section contains various decorative items designed primarily for use outdoors in the lawn and garden. Note that outdoor planters are in Section 2 (Planters & Hangers), and bird feeders and birdbaths are in section 3 (Birds and Wildlife).

Our catalog is generally organized by manufacturer to help retailers maintain shelf consistency. Therefore, items in this section may not rigidly adhere to the section title. We encourage you to browse the entire section, and check the index when searching for a specific item.

We also offer several "Direct Ship" lines that fall into the Outdoor Decor product category. Please refer to Section 10 in our catalog for those lines.

**BETTER THAN ROCKS**

Innovative, 100% recycled drainage product. Eco-friendly, reusable product makes plants lighter. Traditional drainage systems such as rocks, crushed aluminum cans or broken clay pots allow soil to fill in around them. This product keeps that air space open. Product can be cut down to fit any size or shape of pot. Also easy to empty containers at the end of the season.

## DOT PLANTERS

Old Bronze

Slate

In an electronic messaging era, our designer was inspired by the ability of gardening to communicate and chose Braille for the outer texture of the Dot Planter, transforming this container into a vehicle for messaging. Features TruDrop® self watering system. Easy to read level indicator features 4 different levels for more accuracy than traditional systems. Easy to fill hole includes cap to avoid water contamination. Overfill drain designed to drain excess rain water. Plug included with planter for indoor use. UV resistant. Double wall planter. Rotational molded.

# 4: Landscaping & Waterscaping

This section contains materials used by the professional contractor and the homeowner in creating landscapes and waterscapes (ponds and water gardening). Much of the merchandise in this category is sold in bulk with the expectation that it will be installed by landscape contractors as a value added service to homeowners.

Our catalog is generally organized by manufacturer to help retailers maintain shelf consistency. Therefore, items in this section may not rigidly adhere to the section title. We encourage you to browse the entire section, and check the index when searching for a specific item.

**BUSH DOCTOR® COCO LOCO® POTTING MIX**

The coir in Coco Loco behaves like little sponges making water available as needed by the plants. Coco Loco® Potting Mix has the ability to hold more than its weight in water—while still draining well. Lower humidity reduces the possibility of attracting mold and root rot, as well as leaving insects less likely to bother your potted plants.

**STRAWBERRY FIELDS FRUITING & FLOWERING POTTING SOIL**

Strawberry Fields® Potting Soil is designed to pump up your blooms, fruits and berries. This includes herbaceous species, berries, melons and heavy bloomers. The mycorrhizae colonizes directly onto the roots, promoting root development, nutrient uptake and water absorption. The bacterial strains help to convert nutrients into a form that plants can utilize. Strawberry Fields® Potting Soil contains coco fiber, sphagnum peat moss, aged forest products, perlite and fertilizer (fertilizer derived from earthworm castings, bat guano, oyster shell and dolomite lime).

## 100 TREE BARK PROTECTORS

Rigid, plastic mesh netting tubes protect bark from damage caused by feeding animals and lawn care equipment. Unlike plastic pipe and film wraps, the open mesh netting tubes prevent moisture and mildew build-up, do not harbor insects and animals, and won't inhibit growth. Tubes are flexible and easy to install with no tools required.

## 5: Growing Supplies

# 6: Tools

This section features numerous lawn and garden tools and accessories. Although intended for home users, many are suitable for contractor use. Included in this section are such things as shovels, rakes, hoes, pruners, hand tools, brooms, gloves, etc. For chemical sprayers, see section 7 (Watering and Sprayers). For fertilizer spreaders, see section 8 (Fertilizers & Seed). Foster's does not handle any power equipment or their parts.

Our catalog is generally organized by manufacturer to help retailers maintain shelf consistency. Therefore, items in this section may not rigidly adhere to the section title. We encourage you to browse the entire section, and check the index when searching for a specific item.

**FLEXZILLA® SwivelGrip™ GARDEN HOSE**

Flexzilla® makes it easier to work around your home and lawn. SwivelGrip™ action eliminates twists that occur when uncoiling a hose. Conventional garden hose can trap coils that tighten into kinks as you move across the yard. SwivelGrip releases these trapped coils because the hose rotates freely inside the grip. The large, comfortable gripping surface on both ends of the hose makes connections much easier to turn and tighten. SwivelGrip hoses are also drinking water safe.

### HOUSEPLANT SPIKES

13-4-5

These spikes provide a continuous supply of important nutrients right at the roots, where plants need it most. The pre-measured, specially formulated spikes are simply inserted into the soil around your plant. Unlike liquids or granular, spikes eliminate mess, hazards and smells – and can't wash through when you water.

# 9: Pest Control

This section contains products to help control insect, disease, weed and animal pests in the lawn and garden. Most products are chemicals, although some (such as animal traps) are not. We have four major chemical lines: BioAdvanced, Bonide, Ortho, and VPG (Ferti-Lome/Hi-Yield) in addition to numerous products from other manufacturers. Two of our major chemical lines (Bonide & VPG) are targeted specifically at independent retailers to help them compete with “chain” product lines.

Our catalog is organized by manufacturer to help retailers maintain shelf consistency. Therefore, the following overview is not rigidly adhered to. We encourage you to browse the entire section, and suggest you check the index when looking for a specific item.

## Commercial Chemicals Aquatic Herbicides

### AQUASHADE®

Filters wavelengths of sunlight to control unwanted aquatic weeds and algae in natural and man-made contained lakes and ponds, including ornamental, recreational, fish rearing & fish farming ponds with little or no outflow. Also colors the water a pleasing aqua blue. Non-toxic to fish and wildlife and may be used for irrigation.

Treated waters may be used for swimming after Aquashade is dispersed. Generally, one gallon will treat four acre feet of water. For use in garden pools and ponds.

Item No.	Size	Pack	FCE	Retail
WNF AQSGAL	1 gal	4	E66A92	103.99

### NAVIGATE

2,4-D aquatic granular herbicide registered for use in lakes and ponds. Selective herbicide is formulated to control water milfoil, water stargrass, bladderwort, white & yellow water lily, water shield, water chestnut and coontail. Water use is restricted for non-turf irrigation and drinking (human consumption). Readily sinks to the bottom around plants where it is most effective.

Provides gradual release and systemic action for complete kill of entire plant. Controls weeds for up to 1 or 2 years. Has a low toxicity to fish and other aquatic organisms. Active ingredient: 27.6% butoxyethyl ester of 2,4-D.

Item No.	Size	Pack	FCE	Retail
WNF 10001251	50 lb	1	E367A85	479.99

### CUTRINE® PLUS

27.9% Copper complex. Algaecide which controls existing algae and inhibits rapid re-infestation. Also acts as a herbicide in controlling the rooted underwater weed Hydrilla verticillata. Controls all three forms of algae: planktonic, filamentous and chara. Registered for use in

drinking water reservoirs, farm fish and industrial ponds, golf course water hazards, lakes, fish hatcheries and raceways, irrigation water conveyance systems such as canals, laterals and ditches. Far less corrosive to equipment and other metal surfaces than other chelated copper compounds. Treated water can be used for swimming, domestic uses and livestock watering immediately after chemical application. Water from treated lakes, ponds, irrigation systems and golf course water hazards may be used to irrigate turf, fairways, putting greens and ornamental plants. Fish can be caught and consumed immediately after application.

Item No.	Size	Pack	FCE	Retail
WNF 61722515	1 gal	4	E46E92	72.99
WNF 10000931	2.5 gal	2	E108A66	167.99

### COPPER SULPHATE GRANULE

Water hardness, temperature of the water, the type and amount of vegetation to be controlled, and the amount of water flow are to be considered in using Copper Sulfate Crystals to control algae. Begin treatment soon after plant growth has started. If treatment is delayed until a large amount of algae is present, larger quantities of Copper Sulfate Crystals will be required.

Algae growth is difficult to control with Copper Sulfate Crystals when water temperatures are less than 64°F or when the water alkalinity is above 50 ppm.

# Wind River®

## Made in the USA

Our chimes sound exceptional because they are exceptional.

We pride ourselves in our outstanding quality wind chimes made from raw materials sourced in the United States. Our largest suppliers are located in Florida, Georgia, Ohio, and New York, and we work hard to source our materials from fellow USA companies. We craft and assemble all of our hand-tuned chimes and ship them from our warehouse in Virginia.

### *The Eternity Crystals Story*

Eternity Crystals are believed to be formed from the frozen breath of Aeternitas. Pieces that plummeted to the earth, were embedded into mountains, later to be discovered near the end of the Roman Empire. When they were found, it was thought to be an omen of good fortune.

Given to skilled artisans, who carved them into shapes, they were cut with many facets to reflect and amplify the energy around them. It was said they would carry your wishes through the night sky; bringing much health, happiness and prosperity to its owner.

Over the years the legend of the Eternity Crystals has travelled near and far. Some had started to add smaller crystals, to help lighten the burden of each Eternity Crystal. Each small crystal represents a facet in one's life. With each crystal your wishes are heard, and carried into the sky. Make your wishes with this Wishing Thread into the moonlight.
